1. A temporary storage are, used generally for cut/copied of text or graphics–
(A) buffer (B) clip board
(C) window (D) none of these
Answer: clip board

2. The term 'operating system' refers to–
(A) a set of programs which controls computer working
(B) the way a computer operator works
(C) conversion of high level language into machine language
(D) the way a floppy disk drive operates
Answer: a set of programs which controls computer working

3. The term used to refer to horizontal page orientation–
(A) portrait (B) alignment
(C) table (D) landscape
Answer: landscape

4. The ascending order of a data hierarchy is–
(A) bit, byte, field ,record, file, database
(B) bite, byte, record, field, file, database
(C) byte, bit ,field, record, file, database
(D) byte, bit, record, field, file, database
Answer: bite, byte, record, field, file, database

5. What are symbol used to identify items in a list?
(A) icons (B) markers
(C) bullets (D) graphics
Answer: bullets

6. How are data organized in a spread-sheet?
(A) Lines & spaces (B) Layers & Planes
(C) Height & Width (D) Rows & Columns
Answer: Rows & Columns

7. The blinking symbol on the computer screen is called the–
(A) mouse (B) logo
(C) hand (D) cursor
Answer: cursor

8. One megabyte equals approximately–

(A) 1,000 bits (B) 1,000 bytes
(C) 1 million bytes (D) 1 million bits

Answer: 1 million bytes

9. Data going into the computer is called?
(A) Output (B) Algorithm
(C) Input (D) Calculations

Answer: Input

10. Which of the following refers to the memory in your computer?
(A) RAM (B) DSL
(C) USB (D) LAN

Answer: RAM

11. What is the ultimate purpose of Defragmentation ?
(A) Make the PC faster (B) Create more free space
(C) Delete temporary files (D) Reduce power consumption

Answer: Create more free space

12. Computers process data into information by working exclusively with–
(A) multimedia (B) words
(C) characters (D) numbers

Answer: numbers

13. You must install a/an ………………….. on a network if you want to share a broadband Internet connection.
(A) router (B) modem
(C) node (D) cable

Answer: router

14. The purpose of the primary key in a database is to–
(A) unlock the database (B) provide a map of the data
(C) uniquely identify a record (D) establish constraints on database operations

Answer: provide a map of the data

15. The design of the network is called the network–
(A) architecture (B) server
(C) transmission (D) type

Answer: architecture

16. Which of the following language support garbage collection–
(A) java (B) C++

(C) C (D) small talk

Answer: java

17. Procedural programming language is–
(A) COBOL (B) BASIC
(C) C++ (D) PASCAL

Answer: COBOL

18. PASCAL is–
(A) structured programming language (B) procedural programming
(C) monolithic programming (D) object oriented

Answer: structured programming language

19. Class is–
(A) a template which associates code and data (B) data-abstraction
(C) implementation of abstract data type (D) object oriented

Answer: object oriented

20. The most common system security method is–
(A) password (B) encryption
(C) fire wall (D) all of the above

Answer: fire wall
